

Let Us Do The Heavy Lifting In Your Value-Based Care Contracts

Are you struggling to manage complex outcomes-based contracts? We've got you covered.

Challenges You Face

Complex Data

Navigating large volumes of contract and performance data that is often incomplete or insufficient.

Underperforming Contracts

Addressing unexpected financial shortfalls that can affect profitability and overall VBC success.

Operational Overload

Managing time-consuming and resource-intensive manual processes that hinder efficiency.

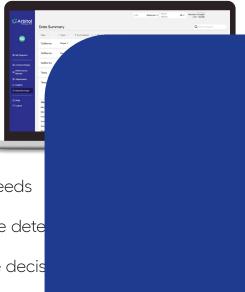

Arbital Health Platform Solutions

Your Unified Solution for Value-Based Care Contract Management

- Centralize all contracts in a single platform
- Predict financial outcomes with confidence
- Measure performance across contracts in real-time
- Adjudicate monthly and final contract results effortlessly
- Partner with expert value-based care actuaries
- Improve patient outcomes and quality of care

Key Benefits

- Automated, Streamlined, and Scalable: Turn months of manual work into minutes
- Secure, Cloud-Based SaaS Environment:
 Reliable and secure digital infrastructure for all your data needs
- Trusted Data Quality: Ensure data integrity with seamless ingestion and swift issue dete
- Actuarially-Validated Insights: Access expert analysis against market benchmarks to drive decis

Adjudication Module

- Reconcile and forecast financial performance accurately
- Automate IBNR and MLR calculations
- Forecast surplus and deficit outcomes
- Ensure transparency and accountability
 among stakeholders

Performance Monitor Module

- Real-time contract performance monitoring
- Identify actionable opportunities to drive
- cost savings
 Compare your data to risk-matched benchmark populations
- Discover areas for improvement by identifying population health and operational needs
